

AN ISLAND OF EXTRAORDINARY CONTRASTS

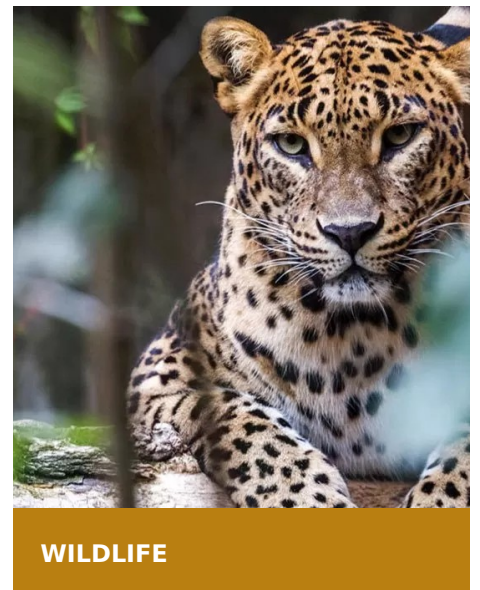

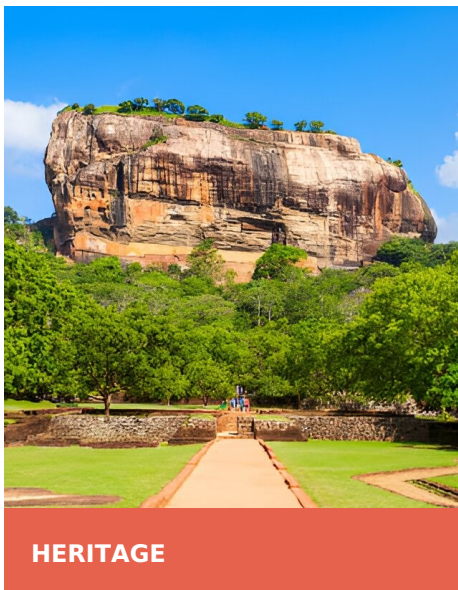

Discover Sri Lanka

Ancient wonders. Emerald hills. Wild encounters.
Golden shores. Discover the places that make the island.

So much to discover. So many ways to feel it.

Sri Lanka rewards curiosity. In one journey, you can explore ancient royal cities, walk through tea-covered hills, look for wildlife in open landscapes and unwind beside the Indian Ocean. Each region has its own character; the joy is in discovering the contrasts rather than rushing from one landmark to the next.

CHOOSE YOUR OWN RHYTHM

Spend longer in the regions you love. Combine a few cultural sights with time outdoors, village life and a relaxed coastal stay.

WHAT IS INSIDE

Explore the Cultural Triangle, Kandy, Ella, tea country, national parks, coastal towns and local experiences, with practical planning ideas.

Tell us your travel dates, interests and preferred pace. We will help you turn inspiration into your own Sri Lanka journey.

Ancient wonders. Living stories.

Follow the traces of kingdoms, sacred art and remarkable engineering through Sri Lanka's heartland. These places reward both a first visit and a deeper, slower exploration.

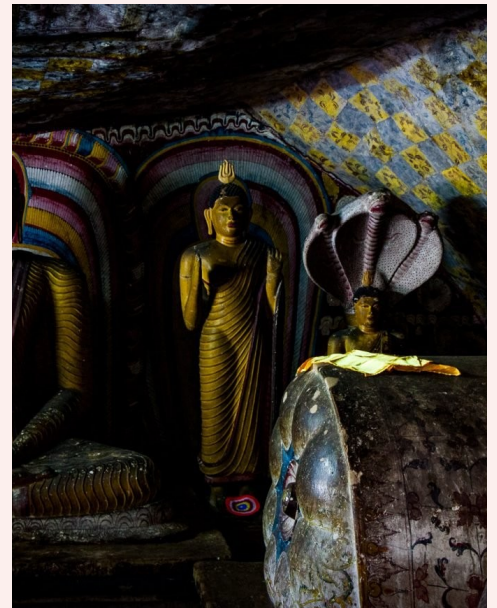

SIGIRIYA ROCK FORTRESS

The gardens, massive rock and summit ruins create one of the island's most memorable landscapes. The climb involves many steps, but the views and changing perspectives make it an extraordinary experience. Leave time to enjoy the gardens as well as the summit.

POLONNARUWA ANCIENT CITY

Discover royal ruins, stone monuments, sacred spaces and the celebrated sculptures of Gal Vihara. The sights are spread across an extensive archaeological area, so plan a comfortable pace rather than a hurried checklist.

DAMBULLA CAVE TEMPLE

Step into cave sanctuaries filled with Buddhist statues and painted ceilings. The contrast between the bright hillside and the richly decorated interiors is striking. Dress respectfully and allow time for the uphill approach.

BEYOND THE LANDMARKS

The countryside around these ancient cities offers village landscapes, reservoirs and quieter stops. Pidurangala is another rewarding climb near Sigiriya; its rocky upper section calls for suitable footwear and confidence outdoors.

SACRED CITIES & LIVING CULTURE

Kandy & Anuradhapura

KANDY

Set among hills around a central lake, Kandy brings together sacred heritage and a lively city atmosphere. The Temple of the Sacred Tooth Relic is the main cultural landmark, while lakeside walks offer a gentler way to enjoy the setting.

ANURADHAPURA

An ancient capital and an active place of pilgrimage, Anuradhapura is known for its vast stupas, sacred sites and remains of monastic complexes. Its scale deserves a carefully planned visit, especially in the heat.

LIVING TRADITIONS

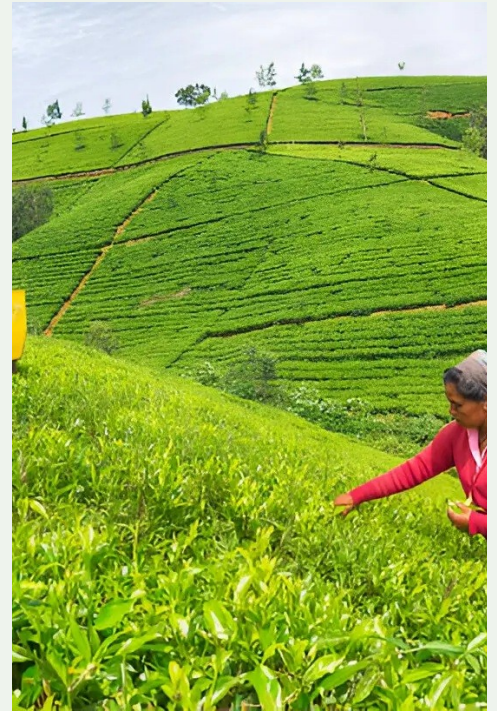

Look beyond architecture to understand the atmosphere of each place. Worship, offerings, craft traditions and daily life continue alongside the heritage. Observe quietly and follow guidance on photography and access.

TAKE YOUR TIME

Choose a few meaningful sights, carry water and plan rest stops. At temples, cover shoulders and knees, remove footwear where required and respect areas set aside for worship.

A greener kind of escape.

Cooler air, layered mountain views and tea-covered slopes reveal another side of the island. The hill country is a place to slow down, take the scenic route and enjoy the journey itself.

ELLA

The Nine Arch Bridge, Little Adam's Peak and Ravana Falls make Ella a rewarding base for scenery and walks. Some viewpoints involve uneven paths and steps; choose activities that suit your fitness and leave time to enjoy the town.

CEYLON TEA

A tea-estate or factory visit introduces the journey from leaf to cup. Learn about growing and processing, enjoy the landscape and taste the flavours that have made Ceylon tea known around the world.

NUWARA ELIYA

Discover a cooler climate, lakeside scenery and a town shaped by its tea-country setting. Explore surrounding estates and waterfalls, then pause for a cup of Ceylon tea rather than treating the area as only an overnight stop.

A SCENIC TRAIN JOURNEY

A rail section can turn travel between places into an experience in its own right. Routes, seats and schedules need advance planning. Enjoy the views safely and choose a journey length that fits your itinerary.

Life beside the Indian Ocean.

From historic fort streets to beach towns and calm river scenery, the coast offers more than a place to unwind. Combine heritage, food, sea views and time outdoors.

GALLE FORT

Walk along the ramparts and through lanes lined with historic buildings, small shops and cafes. The lighthouse and sea views are popular stops, but the character of the fort is best enjoyed with time to wander.

MIRISSA & THE SOUTH

Mirissa makes a relaxed southern stop with beaches, viewpoints and seafood. Whale-watching trips are an option when conditions and operations allow; these are wildlife outings, with no guarantee of sightings.

BENTOTA & HIKKADUWA

Bentota combines beach stays with river surroundings and water-based activities. Hikkaduwa is known for its coastal atmosphere and marine experiences. Conditions vary, so choose activities with local guidance.

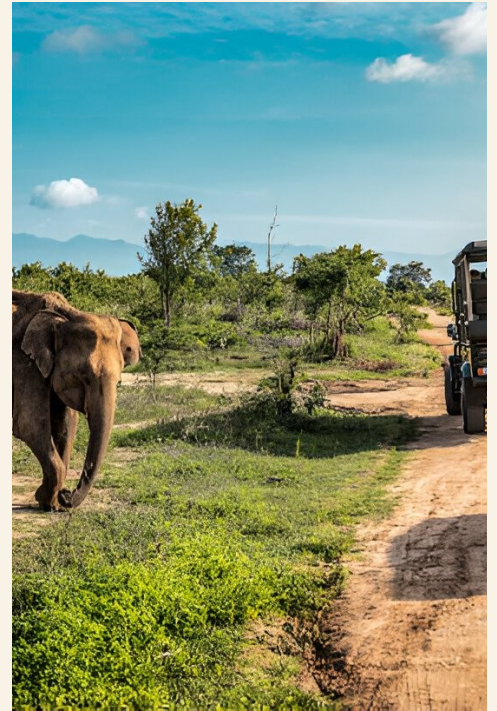

MAKE ROOM FOR THE COAST

A few beach nights create breathing space after busy cultural and hill-country days. Choose a town to match your preferred atmosphere, and check sea conditions before swimming or booking water activities.

Wild Sri Lanka.

Look for wildlife across forest, scrub, grassland and water. A safari is about the whole landscape, from birds and smaller animals to the possibility of seeing elephants or a leopard.

YALA & WILPATTU

Yala's varied habitats and Wilpattu's forest and natural lakes offer different safari settings. Both are associated with leopard viewing, but sightings depend on chance, conditions and animal movement.

UDAWALAWE

Open landscapes make Udawalawe a popular choice for elephant-focused wildlife visits. It combines well with routes between the hill country and the south, depending on your starting point and available time.

MINNERIYA & KAUDULLA

The parks around the Cultural Triangle are popular for elephant watching. Animals move between habitats, so the best choice can change with water levels and local conditions. Let recent observations guide the plan.

A THOUGHTFUL SAFARI

Keep quiet, follow park rules and give animals space. Binoculars, a camera and patience add to the experience. Select a park that suits your route rather than trying to visit every park in one holiday.

WILDLIFE NOTE: Every safari is different. Sightings are never guaranteed.

PEOPLE / FOOD / EVERYDAY LIFE

Taste it.
Feel it.
Remember it.

FLAVOURS OF THE ISLAND

Rice and curry, hoppers, string hoppers, fresh fruit and Ceylon tea are starting points for discovering Sri Lankan food. Ask about local meals or a cooking experience to understand ingredients and regional styles.

SMALL MOMENTS, LASTING MEMORIES

A king coconut stop, a market visit or a conversation along the way can be as memorable as a famous landmark. Keep room in your journey for everyday life and unexpected discoveries.

ARTS & TRADITIONS

Explore traditional crafts and cultural performances where available. Choose experiences that match your interests, ask questions and enjoy learning about the people behind the work.

EXPERIENCE WITH RESPECT

Ask permission before photographing people. Be thoughtful around places of worship, local communities and wildlife. A relaxed, curious approach opens the door to richer experiences.

Find your sense of adventure.

Sri Lanka offers active experiences at different levels. Combine gentle walks and viewpoints with more demanding hikes or guided activities, based on your confidence and fitness.

HILL-COUNTRY WALKS

Explore paths through tea-country scenery and around Ella. Choose suitable footwear, carry water and allow for changing weather. A short walk can reveal views that are missed from a vehicle.

HORTON PLAINS

The highland landscape offers a different atmosphere from the lowlands. Walking conditions, access and weather should be checked when planning, and an early start may suit a longer hiking day.

WATERFALLS & VIEWPOINTS

Ravana Falls and the waterfalls around tea country add variety to a route. Enjoy designated viewpoints; slippery rocks and changing water conditions mean a scenic stop is often the best choice.

GUIDED ADVENTURES

Ask about cycling, water-based activities or other outdoor experiences that fit your route. Availability, operator arrangements and weather determine what can be included on your travel dates.

PLAN AROUND YOU: Easy scenery stops / Gentle walks / Active days

Look beyond the familiar.

The island's cities and less-visited regions offer new perspectives. Add them when you have the time to appreciate their character rather than stretching a short itinerary too far.

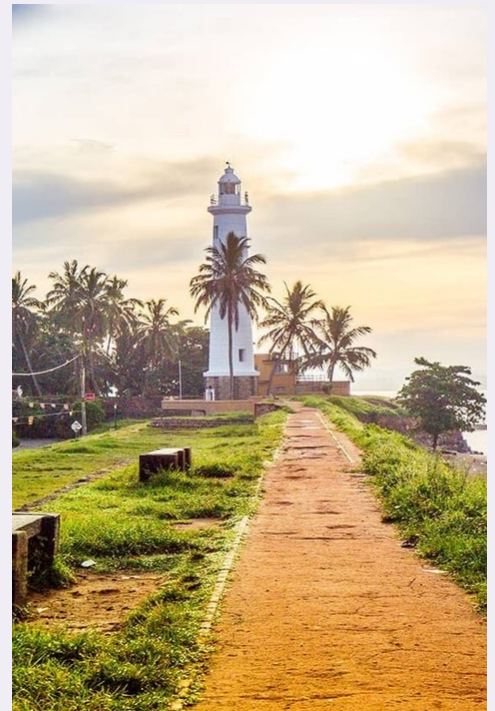

COLOMBO

Explore a capital of contrasting neighbourhoods, religious landmarks, markets and seafront spaces. A city visit can be an introduction to the island or a relaxed final day before departure.

NEGOMBO

Near the main international airport, Negombo can be a convenient first or last stop. Its fishing-town character, lagoon setting and coastal atmosphere offer a different experience from the capital.

GALLE

Make time for the coastal city beyond a quick lighthouse photograph. Fort streets, ramparts, places of worship and small shops create an enjoyable mix of historic architecture and everyday activity.

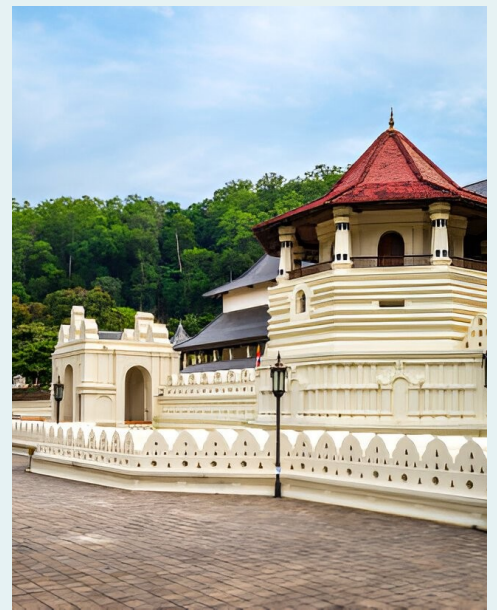

NORTH & EAST

Consider Trincomalee for a coastal stay or Jaffna for a distinctive northern cultural setting. Allow enough time for the additional travel and choose beach dates with seasonal conditions in mind.

MAKE IT YOURS: Add a city, a coast or a region that matches your interests.

Plan a holiday with room to enjoy.

A rewarding route balances travel, sightseeing and rest. Your interests, guest ages, arrival point and available days matter more than the number of stops on a map.

CHOOSE A FEW PRIORITIES

Decide whether culture, wildlife, hill country or the coast matters most. Build around those priorities and add complementary experiences instead of trying to include every destination.

PACK FOR CONTRASTS

Bring light clothes, sun protection, comfortable walking shoes and an extra layer for the hills. Modest clothing is useful for temples. Keep water and everyday essentials close on sightseeing days.

MATCH PLACES TO YOUR DATES

Different parts of the island can have different weather and sea conditions. Discuss your travel dates before choosing a beach region, safari plan or outdoor activity.

LEAVE SPACE IN THE ITINERARY

Allow for road travel, rests and your own pace. Climbs and long-distance day trips can be tiring; an overnight stay sometimes makes the same experience more enjoyable.
